SKILLS

IA & NLP

Hugging Face vLLM
llama.cpp LLM-as-a-judge
NER Prompt engineering
BERTScore, ROUGE

Programming

Python PyTorch
scikit-learn Pandas
SQL, PL/SQL MongoDB

Tools

Docker Git Linux
GPU cloud Kafka, Spark
NiceGUI Streamlit

LANGUAGES

French native
English B1+, TOEIC 665

OUTSIDE OF CLASS

Triathlon
Léo Survival, running and camping
Léo Houblon, beer brewing
Hardware and video games

Interactive resume

Screenshots of my projects, course details and more.

6-month end-of-studies internship, from March 2027

Final-year engineering student, Data & AI major. I built a benchmark of LLMs on medical French and I am looking for a 6-month NLP internship from March 2027.

36 tokens

Experience

Software Developer Intern, Data & AI

may – aug. 2026

GIP Numih France, Rennes

Designed a benchmark to evaluate how open-source LLMs perform on medical problems in French.

01 reference

500

Q&A pairs, 19 specialties

02 inference

18 LLMs

compared with vLLM on H100

03 scoring

3 levels

semantic, factuality, LLM judge

04 results

1 app

NiceGUI web app for non-developers

- ROUGE-L, BLEU, BERTScore (CamemBERT-bio) and SemScore (BGE-M3) metrics, plus a Qwen judge model
- Medical named-entity recognition (DrBERT, IAMsystem) aligned with UMLS, SNOMED and ICD-10, with 3,400 synonyms
- App: leaderboard, per-model deep dive, review of every answer, model onboarding and custom scoring

Education

Riga Technical University, Latvia

sept. 2026 – jan. 2027

Master's exchange semester taught in English, plus a one-month intensive English course

Information Retrieval ML Algorithms Computer Vision Advanced Data Tech.
Business Analytics

ESILV, Paris-La Défense

2024 – 2027

Engineering degree, Data & AI major, Computer Science track

Deep Learning IR & NLP MLOps Explainable AI Machine Learning
NoSQL

Prépa MPSI / MP, Lycée Arago, Perpignan

2022 – 2024

Intensive maths and physics, preparing for French engineering school entrance exams. Research project: can heat make a ski faster?

Projects

My local LLM, accessible from anywhere

Qwen 27B running with llama.cpp on my PC, with secure access via Tailscale and SSH.

2026, ongoing

AI assistant for Leo Learning

PI² team project: a study assistant for ESILV students. Grade: 16/20.

2024 – 2025
